-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 28 June 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see page 6, filed 6/28/06, with respect to the rejection(s) of claim(s) 1,2,4,8,9 under 102(b) as anticipated by Bukosky have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Mathleu et al. (7008091).

2. The indicated allowability of claim 11 is withdrawn in view of the newly discovered reference(s) to Bukosky et al. (6749325). Rejections based on the newly cited reference(s) follow. Note that although Bukosky et al was previously applied the new rejection is based on a new alternate embodiment shown in Figs. 8 and 9 and the not the previously applied embodiment shown in Figs. 6 and 7.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claims 1,2,4,8 and 9 are rejected under 35 U.S.C. 102(e) as being anticipated by Mathieu et al. (7008091). Re claims 1 and 8, Mathieu shows in Fig.2, a window (61), a reflector (120), and backward facing LEDs (110,111) that emit light towards the reflector (120) and because of their backward facing orientation do not illuminate the window (61) directly but only indirectly via the reflector (120). Re claim 2, note that the chassis forms a directional arrow garnish as best seen in Fig.1. Re claims 4 and 9,

Mathleu discloses surface mounted LEDs on a flexible circuit board (90), see col.8, lines 15-40. Applicant cannot rely upon the foreign priority papers to overcome this rejection because a translation of said papers has not been made of record in accordance with 37 CFR 1.55. See MPEP § 201.15.

5. Claim 11 is rejected under 35 U.S.C. 102(b) as being anticipated by Bukosky et al. (6749325). While Fig.7 of Bukosky shows the chassis disposed on the mirror instead of mirror housing as recited in claim 11, Figs.8 and 9 shows an alternate embodiment which shows the chassis (104) formed on the mirror housing (101) which houses mirror (120) the chassis formed on the mirror housing has a opening (135), lamps arranged in the hollow space have a light source (140) and reflector (150) that reflects light toward the opening (135) and the light source (140) does not illuminate the opening (135) directly.

Allowable Subject Matter

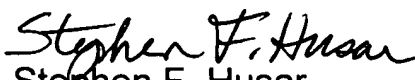

6. Claims 3 and 7 are allowed.

7. Claims 5,6,10 and 14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
